

**RADIO FREE ASIA ANNOUNCES QSL CARD #81
DECEMBER 2022**

To welcome the Year of the Rabbit, Radio Free Asia (RFA) announces its latest QSL card. RFA is closing out an historic year of impactful reporting and exciting growth, during which we have begun broadening our programming and storytelling capacity, as well as updating our technological infrastructure. As we continue our expansion, we look forward to serving our audiences in 2023! This is RFA's 81st. QSL design and will be used to confirm all valid RFA reception reports from January – April 2023.

RFA's QSL CARD #81

Created by Congress in 1994 and incorporated in 1996, RFA broadcasts in Burmese, Cantonese, Khmer, Korean to North Korea, Lao, Mandarin Chinese, Vietnamese, Tibetan (including Uke, Amdo, and Kham dialects), and Uyghur. RFA strives for accuracy, balance, and fairness in our editorial content. As a 'surrogate' broadcaster, RFA provides news and commentary specific to each of our target countries,

acting as the free press these countries lack. RFA broadcasts only in local languages and dialects, and most of our broadcasts comprise news of specific local interest. More information about RFA, including our current broadcast frequency schedule, is always available at www.rfa.org.

RFA encourages listeners to submit reception reports. Reception reports are valuable to RFA as they help us evaluate the signal strength and quality of our transmissions. RFA confirms all accurate reception reports by mailing a QSL card to the listener. RFA welcomes all reception report submissions not only from DX'ers, but also from our general listening audience.

Reception reports are accepted by email at qsl@rfa.org and by mail to:
